Mr. Robin DeLaBarre  
U.S. Department of State  
2201 C Street, N.W.  
Office of Nuclear Energy Affairs, Room 3318  
Bureau of International Security and Nonproliferation  
Washington, D.C. 20520

Dear Mr. DeLaBarre:

Enclosed is an application for a license (XSNM03469), recently received by the U.S. Nuclear Regulatory Commission, to export low-enriched uranium dioxide powder (UO<sub>2</sub>) to Japan for use as reload fuel in the Takahama Units 1 and/or 2; and/or Mihama Units 2 and/or 3 nuclear power reactors. Assurances from Japan that the material will be subject to all of the terms and conditions of an agreement for cooperation, are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that according to the enclosed application, the source material for this export was enriched in the United States after being imported from Namibia, the United Kingdom, and the People's Republic of China (PRC). Thus, unless we are advised otherwise, the NRC license will include an authorization for the export of EURATOM and PRC-obligated material.

Sincerely,

*/RA/*

Stephen Dembek, Section Chief  
Export Controls and International Organizations  
Office of International Programs
