

NRC FORM 7 (5-2003) 10 CFR 110		U.S. NUCLEAR REGULATORY COMMISSION		APPROVED BY OMB: NO. 3150-0027 Estimated burden per response to comply with this mandatory collection request: 2.4 hours. This submittal is reviewed to ensure that the applicable statutory, regulatory, and policy considerations are satisfied. Send comments regarding burden estimate to the Records Management Branch (T-6 E6), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet e-mail to Infocollects@nrc.gov , and to the Desk Officer, Office of Information and Regulatory Affairs, NEOS-10202, (3150-0027), Office of Management and Budget, Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection. XCOM Application

Dear Ms. Owens

*including any additional spare
and/or replacement parts thereof, ***

Westinghouse would like to apply for a US NRC XCOM, or Components License for the export of Top and Bottom Nozzles to Jedinstvo-PNO d.o.o, located in Croatia. Jedinstvo manufactured these nozzles under contract for Westinghouse for our use in nuclear fuel assemblies we manufacture at our Columbia, SC facility. Westinghouse wishes to return to Jedinstvo any nozzles which need to be reworked or repaired so as to meet our quality standards. Once repaired the nozzles would be returned to Westinghouse for use in our fuel assemblies.

A check for \$1,900 is enclosed for the license application fee. Please contact me if you have any questions on this matter.

Very truly yours,

Edward F. McDonough

EFM-06-1142

Dear Ms. Owens,

I agree with the revised text proposed below with one clarification.
I propose the following to clarify that the nozzles were manufactured by
Jedinstvo not the fuel assemblies.

Form 7, Block 17: "Top and Bottom nozzles manufactured by Jedinstvo,
including any additional spare and/or replacement parts thereof, which are
ultimately used for Westinghouse fuel assemblies."

Thank you.

Dear Mr. McDonough,

This is to confirm that NRC received your request to revise the application
pending for a license (XCOM1170) to export (return) Top and Bottom nozzles
to Croatia for use in manufacturing Westinghouse fuel assemblies, to also
include parts thereof. If you agree, we propose revising the NRC Form 7

application and cover letter dated February 3, 2005, Reference EFM-05-0162, by writing in the underlined portions of the text as follows:

Form 7, Block 17: "Top and Bottom nozzles, including any additional spare and/or replacement parts thereof, which are used for Westinghouse fuel assemblies that were manufactured by Jedinstvo."

Cover letter, line two: "Top and Bottom Nozzles, including any additional spare and/or replacement parts thereof, to Jedinstvo-PNO d.o.o, located in Croatia." 

Upon receipt of your response regarding the appropriate text, NRC will forward copies of the revised documents including references to and copies of the email messages exchanged to: (1) the ADAMS public document system; and (2) the other interested parties, who previously received copies of the original versions.

Please contact me if you have questions or wish to discuss.

Janice Owens
US NRC Licensing Officer

Dear Ms. Owens,

Westinghouse would like to amend our pending license application XCOM 1170 for the proposed export to Croatia of top and bottom nozzles manufactured by Jedinstvo and sent to the United States to include parts thereof, such as steel castings for use in manufacturing part of the nozzle. Since we might have to export other parts of the top and bottom nozzles to Croatia in the future we wish to add " and parts thereof of the top and bottom nozzles" so as to cover all possible parts of these nozzles.

All

other parts of the original application (reference EFM-05-0162, dated February 3, 2005) remain unchanged. Please contact me to discuss this issue and other issues which I have left messages for you to contact me.
