TRANSMITTAL OF SURVEY PACKAGES IN SUPPORT OF BIG ROCK POINT
PHASED LICENSE TERMINATION**

References:

1. Big Rock Point to U.S. NRC dated October 31, 2006, Transmittal of Survey Packages in support of big Rock Point Phased License Termination

Attachment 1 contains a matrix of Final status Survey (FSS) record numbers, survey area descriptions, and review status. This attachment is a revision to attachment of our letter dated October 31, 2006. It contains a list of the final status survey release records expected to be submitted in support of our FSS report. This letter and attachments is the last submittal of the release records in support of the FSS Report. The FSS report is expected to be submitted on or around the fifteenth of November. Also attached, are the following survey release records:

CLASS 1 FINAL STATUS SURVEY RELEASE RECORD

- South Protected Area (Attachment 2)

CLASS 2 FINAL STATUS SURVEY RELEASE RECORDS

- South West Transport Route (Attachment 3)
- North East Transport Route (Attachment 4)
- South East Transport Route (Attachment 5)
- East Powerline Corridor (Attachment 6)
- West Powerline Corridor (Attachment 7)
- Storm Water Drainage Ditch (Attachment 8)

CLASS 3 FINAL STATUS SURVEY RELEASE RECORD

- South Woods Boundary (Attachment 9)

These records are being provided to facilitate U.S. Nuclear Regulatory Commission review, as discussed in our April 12, 2006 meeting. Attachments 2 through 9 to this

NM5501

letter comprise those portions of survey packages which may be of use for final review and will be summarized in our FSS report.

The phased release approach is described in Sections 1.4.2 and 5.1.2 of the BRP License Termination Plant (LTP). BRP intends to release site land from the 10 CFR Part 50 license using this phased approach. The first phase includes the majority of the site land scheduled for release after all demolition, remediation and FSS activities associated with plant operation are complete.

BRP LTP Chapter 5 commits BRP to producing FSS package(s) for each survey area and outlines the contents of each supporting survey package.

The intended partial site release supports the process of license termination by demonstrating that an additional portion of the remaining site lands can be released from the Site license. This letter, along with completed and future on-site inspections and letters, provides documentation that demolition activities have been performed in accordance with the LTP.

Your timely review of FSS information and approval of our request to release the associated land is particularly important to the project and smooth transition to an Independent Spent Fuel Storage Installation (ISFSI)-only operation.

If you have any questions or comments on these reports, please contact Ken Pallagi, Radiation Protection and Environmental Services Manager at 231-547-8416.

Kurt M. Haas

¹ Survey Area Map – Big Rock Point License Termination Plan, Chapter 5, figure 5-3, Initial Land Area Survey Units

² Record Number nomenclature is defined in Procedure RM-76, Final Status Survey Design, step 6.2, Survey Unit Nomenclature

³ Surface of survey unit 11 was divided into North and South areas due to intermediate use of land between the quarry survey and the final surface survey (served as solid Radwaste storage yard in interim.)

⁴ Discharge Canal is North East of the Protected Area

⁵ Soils removed from Class 1 Area excavations
