Atlanta, Georgia 30303-8931
(404) 562-4400

Mr. Parker,

In reference to the letter dated August 15, 2006. Please change our amendment request for the following:

Amend License # 45-30875-01 63036490

1. Please change the location of the Nuclear Suite/Hot Lab from 280 to 220(in the letter dated 8/5/06 suite 212 was named by mistake). We wish for suite 280 to be removed from the license. All byproduct material has been relocated to suite 220 Hot Lab area. As you will see in the attached letter a closeout survey and wipes were completed at the time of the move. Also enclosed is a diagram of the suite with numbered locations of survey and wipe areas.

If you have any questions or need any further documentation, please contact me at 804-445-4461 or my email is Rivahone@aol.com

Sincerely,

Debra Acors, AS, RT(R), CNMT, NCT
Radiation Safety Officer

RECEIVED
REGION I

Wednesday, September 06, 2006

On this date, I, Debra Acors, performed a closeout survey and wipe test on our previous Nuclear Suite & Hot Lab. All surveys and wipes were at background levels.

A handwritten signature in black ink that reads 'Debra Acors'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Debra Acors A.S.,CNMT, NCT, ARRT
Radiation Safety Officer
