Dear David and John:

Please amend the NRC License 52-25430-01 to include the authorization to calibrate Nuclear Gauges (the calibration blocks do not posses any radiation sources); possession/transfer of Nuclear Gauges for calibration and training; and to provide the certification course for Nuclear Gauge users. (Please refer the letter dated August for the Training outline.)

Training and Experience: I audited the CPN course offered October 24, 1998 and received three days of hands on experience at Betterroads. Ramon Rudd (from Betterroads attended the October course the same time that I did and also provided me with the hands on experience using the nuclear gauges. Marie Cordero, RSO, assisted me in scheduling and obtaining the hands on training. If you like, you can contact either one at (787) 760-1094 ext. 252.

If you need more information, please let me know.

Sincerely,

David Rhoe
