Subject: Docket 71-9263
Certificate of Compliance Consolidated Application
Model SPEC-150, Type B(U)-85 Transportation Package
Package Identification Number USA/9263/B(U)-85

Dear Mr. Waters:

Attached please find SPEC drawing 15B625, Rev 1. Recalling our phone conversation today, you indicated your intention to reference this drawing in the Certificate of Compliance for the SPEC-150. Since this drawing had been obsoleted in our engineering library, it was necessary to increment the revision number to meet our QA system requirements for reactivation of an engineering drawing. There are no changes associated with this revision.

Please do not hesitate to contact me if any assistance or clarification is needed.

Sincerely,

Peter G. Weber
Director of Engineering
