DOCKETED
USNRC

January 25, 2007 (12:34pm)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

I urge you to approve a petition that was published in the Federal Register on November 20, 2006 for rule making that would improve radiation protection standards at older reactors. This petition was assigned Docket No. PRM-51-1

28

Rules should instruct that the NRC reconcile its generic environmental impact statements for nuclear power plant operating license renewal applications with current scientific understanding of the health risks of low-level radiation, including but not limited to those discussed in the National Academy of Sciences Health Risks From Exposure to Low Levels of Ionizing Radiation: Biological Effects of Ionizing Radiation (BEIR) VII Phase 2 Report.
Thank you for your concerns about our concerns,
Nina Keller
