\*RE: Docket No. PRM-51-10 - Support The Massachusetts Attorney General's  
Petition for Rulemaking- Spent Fuel\*

\*I support the Massachusetts Attorney General's Petition for Rulemaking.\*

\* \*

\*Specifically we support the Attorney General's position that the Nuclear  
Regulatory Commission should:\*

\* \*

\*(a) Consider new and significant information showing that NRC incorrectly  
characterized the environmental impacts of spent fuel storage as  
insignificant, \*

\* \*

\*(b) Revoke the regulations which codify that incorrect conclusion and  
excuse the NRC's failure to consider spent fuel storage impacts in the  
licensing process, \*

\* \*

\*(c) Issue a generic determination that the environmental impacts of high-density pool storage of spent fuel are significant, and\*

\* \*

\*(d) Order that any NRC licensing decision that approves high-density pool storage of spent fuel at a nuclear power plant or any other facility must be accompanied by an EIS that addresses (i) the environmental impacts of high-density pool storage of spent fuel at that nuclear plant and (ii) a reasonable array of alternatives for avoiding or mitigating those impacts.\*

\* \*

\*We know that this rule change is important to better protect the Commonwealth's public health and safety and that new and significant information, e.g., the events of 9/11 and the President's statement that nuclear power plants are on terrorist's lists, has evolved since the rule was written.\*

\* \*

\*Very truly yours,\*

\*\*
