

February 7, 2007

MEMORANDUM TO: Division Directors
Office of New Reactors

FROM: R. William Borchardt
Director /RA/
Office of New Reactors

SUBJECT: Briefing on Implementation of New Reactor Licensing Program Plan

The New Reactor Licensing Program Plan (LPP) is attached. The LPP, along with the associated license application review schedules (Gantt Charts), provide our current approach to managing the large expected number of licensing reviews. A briefing on the LPP will be conducted on February 22, 2007, in room O-01F22, from 1:30 to 3:30. All Office of New Reactors (NRO) Division Directors and Deputy Division Directors are encouraged to attend, as the LPP will be an important part of NRO operations.

Subsequent to this briefing, individual meetings will be conducted with all NRO branch chiefs, with licensing review responsibilities, to review the integrated schedule and to discuss the branch's assigned tasks and resources. These meetings will also address contracting strategies.

If you cannot attend the initial briefing, please send a representative in your place.
