SUBJECT: Final Safety Evaluation For the Boiling Water Reactor Owners' Group
(BWROG) Structural Integrity Associates Topical Report (TR) SIR-05-044,
"Pressure Temperature Report Methodology For Boiling Water Reactors" (TAC
No. MC9694)

ENCLOSURE: "-A" Version of Topical Report (TR) SIR-05-044, "Pressure Temperature Report
Methodology For Boiling Water Reactors" (TAC No. MC9694)

Dear Sir:

Enclosed please find the "-A" version of the subject topical report requested by your letter of February 6, 2007. In response to your request for proprietary and nonproprietary versions of the report, we are providing only the latter since the report has always been considered nonproprietary by its author. We have included the following information requested in your letter:

- Following the title page of the report, the NRC letter of February 6 and the enclosed final SE
- In Appendix C, NRC requests for additional information and the BWROG responses
- "-A" (designating accepted) following the TR identification symbol

We appreciate the timely NRC reviews and look forward to the implementation of this topical report by the BWROG members using this methodology.

Should you have additional questions please contact Fred Emerson (BWROG Project Manager, 910-675-5615) or me.

Sincerely,

R. C. Bunt
BWR Owners' Group Chair
