Dear Mr./Ms. Simmons:

Re: Specific License #13-20664-01.

All of our sources are contained in devices which measure thickness or chemical composition, and were obtained through authorized transfers by the device manufacturers/distributors. We believe they are all fully covered under our General License #GL-704791.

Therefore, we do not believe we have any further need for Specific License #13-20664-01.

Please terminate the above-mentioned specific license.

Thank you very much.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael L. Brown". The signature is fluid and cursive, with the first name "Michael" being more prominent than the last name "Brown".
