Dear Sir or Madam:

Deaconess Hospital would like to amend its NRC Byproduct Materials License, Number 13-00142-02, to delete Dr. Christina N. Shinaver, M.D. from the list of Authorized Users. Dr. Shinaver has discontinued practice at Deaconess Hospital.

In addition, we ask that 10 CFR 35.600 for iridium-192 for use in a High Dose Rate Remote Afterloading Brachytherapy Unit be added to the authorizations of Michael J. Miller, M.D. Dr. Miller is currently listed on our NRC License as an Authorized User of 10 CFR 35.300 materials. Dr. Miller is currently listed as an Authorized User for 10 CFR 35.600 on NRC Byproduct Materials License Number 13-03226-04 (St. Marys Medical Center).

We also ask that Salyid Shah, Ph.D. and Arnold Sorensen be deleted from the list of Authorized Medical Physicists. They have discontinued practice at Deaconess Hospital.

Finally, we ask that depleted uranium (6.F.) be removed from our NRC License. The depleted uranium was previously used for shielding of ADAC Laboratories MDC-AC attenuation correction system and it was removed from our facility at the same time as the 10 CFR 35.500 sources were.

If there are any questions concerning this license amendment, please contact our nuclear medicine physicist, Mr. Patrick J. Byrne, D.A.B.R., C.H.P. at 877-317-5811.

Sincerely,

Raymond Poston

Raymond Poston, B.S., R.T.T.
Radiation Safety Officer
