SUBJECT: SAFETY LIGHT CORPORATION, CONSENT TO THE WITHDRAWAL OF  
DECOMMISSIONING TRUST FUNDS, CONTROL NOS. 140726 AND 140727

Dear Mr. Lynch:

This refers to the letter dated June 27, 2007, requesting written consent to withdraw \$12,774.25 from the NRC-controlled decommissioning trust fund. We understand that these funds are needed to pay for the packaging of the high-activity tritium waste from pre-2000 licensed activities prior to shipment and burial. In a letter dated May 19, 2006, we authorized you to withdraw \$300,000 from the decommissioning trust fund to characterize and dispose of high activity tritium wastes from pre-2000 licensed activities; and, in a letter dated June 11, 2007, we authorized you to withdraw an additional \$24,000 to cover the actual costs of burial, which exceeded your original estimate. Because the characterization and disposal of tritium wastes from pre-2000 licensed activities is essential to the successful closure of activities at the site by December 2007, this expenditure falls within the provisions of Condition 19.A. of your license. Accordingly, you are now authorized to use an additional \$12,774.25 of the decommissioning trust fund to pay for work done to package the tritium wastes from pre-2000 licensed activities and to dispose of the high-activity tritium wastes from pre-2000 licensed activities. You should plan to keep this office informed of your expenditures and progress in characterization and waste disposal as activities proceed.

If you have any questions regarding this matter, please contact Betsy Ullrich of my staff at (610) 337-5040.

Sincerely,

***Original signed by Marc L. Dapas
