Re: NRC License 45-17898-01 Reston Hospital Center

Dear Sir/Madam:

In reference to the above-cited RML, we wish to add a new area of use. The area is adjacent to the current nuclear medicine department and will be a new cardiac stress lab with treadmill.

Our consulting physics group has recommended amending our license to establish control over the area. Please see the enclosed floor plans for your records.

Sincerely,

  
Jane Raymond, Vice President/COO
