Mr. Gary Janosko, Chief
Fuel Cycle Facilities Branch
Mail Stop T-8A33
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Transmittal of the *2004 Annual Site Inspection and Monitoring Report for UMTRCA Title I Disposal Sites*

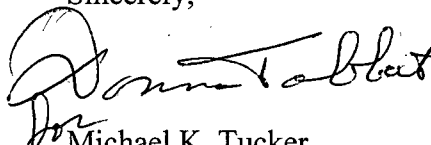

Dear Mr. Janosko:

Four copies of the *2004 Annual Site Inspection and Monitoring Report for Uranium Mill Tailings Radiation Control Act Title I Disposal Sites* are enclosed. The report covers the annual inspections of the licensed disposal sites. All of the sites remain in compliance with license requirements. Hurricane-caused flood damage along the perimeter of the Canonsburg, Pennsylvania, disposal site requires repairs, but the damage did not impact the integrity of the disposal cell.

This report is submitted in compliance with the reporting requirements as set forth in 10 CFR 40.27. Each site was inspected, monitored, and maintained in accordance with requirements contained in site-specific, long-term surveillance plans.

If NRC has comments or questions about this report, please call me at (970) 248-6004.

Sincerely,

Michael K. Tucker
Site Manager
