SUBJECT: CONCO SYSTEMS, INC., REQUEST FOR ADDITIONAL INFORMATION
CONCERNING APPLICATION FOR NEW LICENSE, CONTROL NO. 140567
AND 140568

Dear Mr. Williams:

This is in reference to your applications dated July 17, 2007 applying for a Nuclear Regulatory Commission license. In order to continue our review, we need the following additional information:

1. Your applications should have been signed by a management representative rather than Radiation Safety Officer. Please submit a letter signed by a management representative indicating that management has reviewed both applications and concurs in the statements and representations contained therein. Note also that a management representative should sign all future correspondence that requests a change in your license.
2. Your application for the material license did not specifically state who would be an authorized user. Please confirm that you intend to use Edward L. Williams as an authorized user. Alternatively, you may submit other candidates along with their qualifications.
3. In your application for the material license, you did not describe a training program for radiation workers and ancillary personnel (maintenance, security, etc.). Please submit a description of the radiation safety training program, including topics covered, groups of workers, assessment of training, qualifications of instructors, and the method and frequency of training. The training given to each group should be commensurate with the duties and responsibilities of the group. The training program must assure that personnel are instructed before assuming duties with, or in the vicinity of, licensed materials and specify a frequency for periodic refresher training. Appendix H of NUREG-1556, Volume 12 addresses radiation safety training topics and may be helpful in developing your response.

4. For the facility located at 135 Sylvan Street, Verona, Pennsylvania, please state the location of shipping and receiving.
5. Your application for the material license did not describe your audit program. The applicant must provide a description of its audit program that addresses the following: objectives of the audits; scope of audits; qualification of auditors; frequency of audits including a justification of that frequency; audit techniques; process to deal with and correct problems or deficiencies; and records to be maintained.
6. Please confirm that you have developed a procedure for ensuring material accountability.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material; Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 140567. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5366.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Sincerely,

Original signed by Dennis R. Lawyer
