RE: Amendment to License No. 37-23429-01
Case No. 140728

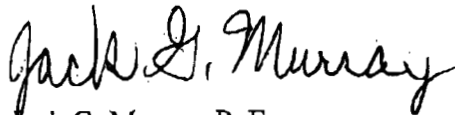

03021061

Dear Mr. Lodi:

We currently possess one CPN density/moisture gauge; model number MC-1DR-P, serial number MD90905325. The gauge was purchased from CPN in 1999. The gauge has never been damaged and the manufacturer has performed leak tests every six months since the date of purchase. All of the leak tests indicate that the source has not leaked.

Very truly yours,

MURRAY ASSOCIATES, INC.

Jack G. Murray, P. E.
