John,

Attached is a copy of the Rad permit for all the radioactive sources under my responsibility, Please note the two IMS units I got from TBE are listed and were picked up by ECBC back in Nov 05.

This should satisfy the NRC folks. Harry Schwartz works in our Rad office and can provide you with a more official document if required to clear your books of these two sources and transfer responsibility of these units from TBE to ECBC, his contact info is in the attached message below.

Let me know if you need additional info
Leonard Buettner

Harry,

FYI, John from TBE had the two IMS sources under his responsibility, he call today for some info showing that these units were leak tested upon receipt and that they were picked up under our ECBC/NRC inventory.

Leonard
