---

## SUBJECT

Control No. 316105 – Regarding amendment request to renew License No. 13-26785-01 by application and letter both dated 3-13-07.

---

## SUMMARY

1. Mr. Dyer confirmed that "Suite 100" is no longer appropriate for their address in Item 2 of the license to be renewed.
2. Mr. Dyer confirmed that the Gamma-Metrics Bulk Materials Analyzer model 2000 will remain in use at the Francisco Mine and that the two Sabia Model XC-50 Series Material Analyzers will remain in use, one each at the Farmersburg Mine and the Somerville Central Mine.
3. In Item 7 of Attachment A to renewal application dated 3-13-07, it appears that a request is being made to replace the current Assistant RSO (ARSO), Chad Wirthwein, at the Somerville Central Mine, by Brad Lawyer. If so, please provide documentation (i.e. training certificate, etc.) confirming his successful completion of an RSO training course. Also, please provide a "Letter of Understanding" jointly signed by the newly appointed ARSO and a high level licensee management representative which both acknowledges the appointment and confirms that the ARSO understands his responsibilities and duties as an ARSO at the Somerville Central Mine. I
4. The renewal application dated 3-13-07 which we received did not address Items 8 through 11 of Appendix B (the suggested format for providing information requested in Items 5-11 of NRC Form 313 for license renewal applications) of NUREG-1556, Vol. 4, published October 1998. Please respond to Items 8 through 11 of Appendix B. (Item 10 has several subparts). This response can be accomplished by making a copy of and filling out the check list in Appendix B of NUREG-1556, Vol. 4. Please note that several of the Items (or subparts) do not require a response.

**Please provide the written response to Items 3 and 4 as additional information to Control No. 316105 and send it to me by facsimile (630-515-1078). No follow-up hard copy is needed.** Any questions, please call me at 630-829-9829. Also, **please call me right after you have sent the response.**

---

ACTION REQUIRED

License to respond as requested

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
