I would suggest that you start with Eva Hickey - 509-375-2065, she can probably answer your questions or point you to someone who can.

Mike,

I was hoping you could help me to contact someone at PNNL.

I am looking at fuel cycle related impacts (10 CFR 51.51 Table S-3) and had some questions regarding the information presented in the North Anna, Clinton, and Grand Gulf ESP EISs (NUREGs-1811, 1815 and 1817). They relate to the Rn-222 and Tc-99 information that is based on the license renewal GEIS. I expect the analysis in the Vogtle ESP EIS will follow the methodology of the previous three so if you can direct me to the PNNL person working on that section I will probably find the answers to my questions.

If you send me a name and number, I'll give them a call. I am in and out of the office so the best way to contact me by phone is my cell (803-295-2113).

Thanks,

Lisa Matis
