New license application dated 4/26/07.

Initial Review Status

- ✓ 1. Please provide a letter signed by both managements (DigiRad Imaging Solutions and Indiana Institute of Cardiology (IIC)) that DigiRad releases the facility as is to IIC and IIC accepts full responsibility for the facility, i.e. any radioactive contamination that may be present and all sources of radiation, i.e. check sources, etc.
2. Please provide the following concerning your appointment of RSO for IIC.
 - ✓ a. How you will divide your time between your consultation duties and onsite availability at IIC to conduct the duties of RSO.
 - ✓ b. Please specify the amount of time it will take you to respond to an emergency involving radioactive materials when you are not present.
 - ✓ c. Please describe the mechanisms for reporting to management of unsafe practices and incidents and management role in responding to such circumstances.
 - ✓ d. Please state the minimum frequency that you will provide radiation safety reports to management.
 - ✓ e. Please list all other RSO positions you currently hold at NRC as well as Agreement States licensees facilities if any.
- ✓ 4. The checklist in your application references Appendix J in 10 CFR Part 35 for the training and experience of George J. Grcevich, M.D. Please make the proper current reference to 10 CFR 35.290.
- ✓ 5. Please confirm that you reserve the right to upgrade survey instruments as necessary as long as they are adequate to measure the type and level of radiation for which they are used. Also, the checklist states that the efficiency test results are attached, however, no results were attached. (Side note. I am not sure why this statement is in the application?)
- ✓ 6. Preceptor form on Page 4 is not dated. Please date provide page 4.
