<p>Name of Licensee: Severn Trent Laboratories, Inc.</p> <p>Name of Participant(s): Timothy Knollmeyer, Radiation Safety Officer Steven R. Courtemanche, Health Physicist, NRC Region I</p> <p>Telephone No. 413-572-4000 610-337-5075</p> <p>Subject: Priority 5T telephone inspection additional information. (NOTE: This will be used as the Documents Title in ADAMS)</p>		
<p>Summary: Information not covered by the Priority 5T phone record. The licensee has two sites in Indiana which are part of its client's facilities. There are a total of three gas chromatographs at these two sites and each contains two Electron Capture detectors (ECD). The licensee has not possessed an XRF unit since 2002 but wants to remain authorized for it in case of need. Neither of the listed authorized users are stationed in Indiana. The licensee will consider amending the license to include, at least, one authorized user who will supervise the day-to-day activities on the sites or adopt a generic training requirement. The letter documenting the inspection should be sent to the Corporate Radiation Safety Officer, Nathan Nunn at AMB-128, 8325 Broadway Street, Pearland, Texas 77584. Three weeks ago, the licensee was bought out by Test America, Inc. This information and how it affects the licensee will be made part of a licensing amendment.</p>
