SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

On June 18, 2007, you contacted the U.S. Nuclear Regulatory Commission (NRC) and indicated that you wished to terminate your NRC radioactive materials license. The NRC staff has reviewed your sealed source leak test results. Based on its review, the staff has concluded that: 1) residual radioactive material attributable to licensed activities does not exceed current NRC criteria; and 2) all licensable radioactive material will continue to be used under a valid State of Utah radioactive material license held by Central Utah Testing and Inspection.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Enclosed is Amendment No. 01 to NRC materials license number 43-27801-01 terminating this license.

Please contact me at 817-860-8189 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Roberto J. Torres
Senior Health Physicist
Nuclear Materials Licensing Branch

Docket: 030-36840
License: 43-27801-01
Control: 471402

Enclosure: As stated
