SUBJECT: BWX TECHNOLOGIES, INC., EMERGENCY PLAN REVISION 18 (TAC L32636)

Dear Ms. Morrell:

This letter is in response to the changes to your Emergency Plan (Plan) submitted by letter dated May 7, 2007. The changes to your Plan reflect a company name change, updated information, correction of typographical errors, a change to include new buildings, and the addition of a Site Area Emergency for Security Incidents. We have completed our review of the submitted changes and have determined that these changes do not decrease the effectiveness of the Plan, and thus were properly submitted under the provisions of 10 CFR 70.32(i).

The issuance of this letter closes activities related to TAC L32636.

The U.S. Nuclear Regulatory Commission (NRC) will incorporate a revised safety license condition S-2 into your license when the license amendment for the new container storage facility is issued.

License Condition S-2 will read as follows:

The licensee shall maintain and execute the response measures in the Emergency Plan, Revision 19, dated April 15, 2007, or as further revised in accordance with 10 CFR 70.32(I).

If you have any questions concerning this letter, please contact me by phone at (301) 492-3113, or via email to mta@nrc.gov.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
