U.S. Nuclear Regulatory Commission
Materials License

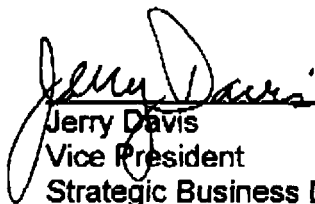

Re: U.S. Nuclear Regulatory Commission – License number 39-32137-01

This is AstenJohnson's formal request to change our Radioactive Materials License with the U.S. Nuclear Regulatory Commission. Please recognize Jason Barnett as the new Radiation Safety Officer for AstenJohnson, Inc. This should include authorization for Mr. Barnett to request reciprocity and/or activity regarding changes, revisions, amendments, etc. to state/federal licenses on behalf of AstenJohnson, Inc.

Please accept this letter as affirmation that AstenJohnson, Inc. agrees to abide by all commitments and representations previously made to the U.S. Nuclear Regulatory Commission. Additionally, please be assured that Mr. Barnett has the full support of the AstenJohnson, Inc. management team to execute his duties as Radiation Safety Officer.

Enclosed you will find Mr. Barnett's Radiation Safety certificate of completion.

Sincerely,

Jerry Davis
Vice President
Strategic Business Development

Jason Barnett
Radiation Safety Officer
