SUBJECT: LICENSE AMENDMENT AND NOTIFICATION PER 10 CFR 35.14(a) and (b)

Please find enclosed Amendment No. 44 to NRC License No. 35-10202-01, **acknowledging your notification to remove Drs. Mooney and Uzquiano from the license. This license amendment also recognizes Dr. Won Song as an authorized user for 10 CFR 35.100, 35.200, and 35.300 modalities, as documented in your notification dated June 25, 2007. Please recognize that the authorization for 10 CFR 31.11 use, greater than the quantities authorized under the general license, has been removed from your license because Dr. Nelson Uzquiano is no longer an authorized user under the license.** An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14)(iv). You should review the enclosed document carefully and be sure that you understand all conditions. If you have any questions regarding your NRC license, please contact me at 817-276-6552.

The NRC medical list server has been set up. The list server will send automatic e-mail notifications of medical-related generic communications, Federal Register Notices, and NMSS/FSME newsletters as they are published. Anyone may subscribe/unsubscribe to the new medical list server by sending an e-mail to medical-gc@nrc.gov with "Subscribe" or "Unsubscribe" in the subject line.

NRC will periodically inspect your radiation safety program. Failure to conduct your program according to NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action against you. This could include issuance of a notice of violation; imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available on the following internet address: <http://www.nrc.gov/what-we-do/regulatory/enforcement/enforc-pol.pdf>.

The NRC no longer publishes the NRC Rules and Regulations loose leaf supplements. However, an electronic version of the NRC's regulations is available on the NRC Web site at www.nrc.gov. Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and guidance.
