**STRATEGIC TEAMING AND RESOURCE SHARING (STARS)
COMMENTS ON PROPOSED GENERIC LETTER
72FR29010 (May 23, 2007)**

The Strategic Teaming and Resource Sharing (STARS)¹ alliance would like to take advantage of this opportunity to comment on the Proposed Generic Communication; Managing Gas Intrusion in Emergency Core Cooling, Decay Heat Removal, and Containment Spray Systems.

The "Requested Information" section in this draft generic letter is very general and may result in a large variation in the detail of responses. Therefore, it is suggested that the "Requested Information" section be expanded to be more specific, similar to the approach in previous NRC generic letters.

The STARS alliance appreciates the opportunity to comment on the draft Generic Letter. If there are any questions regarding this comment, please contact me at 573-676-4775, or tmoser@ameren.com, or Michael Richardson at 805-545-4557, or mjrm@pge.com.

Sincerely,

Paul W Moser
for T. Moser, Chairman

STARS Integrated Regulatory Affairs Group

¹ STARS is an alliance of six plants (eleven nuclear units) operated by Luminant Power, AmerenUE, Wolf Creek Nuclear Operating Corporation, Pacific Gas and Electric Company, STP Nuclear Operating Company and Arizona Public Service Company.
