I. MANAGEMENT ACTIONS

- A. A licensee employee was tested for cause due to information received regarding drug use. The employee tested positive for cocaine, was terminated, and denied unescorted access.
- B. A licensee employee tested positive for alcohol on a random test. The employee was referred to the employee assistance program (EAP) and is in a follow-up testing program.
- C. Due to behavior, a licensee employee was tested for cause at a supervisor's request. The employee tested in the range of 0.02% to 0.04% blood alcohol concentration (BAC). Although not considered a positive test, per Omaha Public Power District (OPPD) procedures, the individual was referred to EAP for a chemical dependency evaluation. The EAP made some recommendations, which the individual completed.
- D. A licensee employee tested in the range of 0.02% to 0.04% BAC on a random test. Although not considered a positive test, per OPPD procedures, the individual was referred to EAP for a chemical dependency evaluation. The EAP made some recommendations, which the individual agreed to complete.

II. EVENTS REPORTED
