Summary of Information and Management Actions Report
(Reporting Period: January 1, 2007 – June 30, 2007)

1. There were no temporary suspensions or other administrative actions taken against individuals based upon on-site presumptive positive tests for marijuana or cocaine.
2. Three (3) contract workers were denied unescorted access following pre-access chemical test failures. Split samples were tested on appeal and results were confirmed positive by the MRO. The contract workers were provided detailed information regarding the right to appeal management actions resulting in access denial.
3. One (1) contract worker was declared uncooperative after refusing to complete the pre-access testing process. The worker was permanently denied site/unescorted access and provided detailed information regarding the right to appeal management actions resulting in access denial.
4. There were no transfers of licensee employees to non-nuclear positions (away from San Onofre site) as a result of failed chemical tests.
5. There were no identified deficiencies in the Fitness for Duty program.
6. During this period, there were no identified items reported to the NRC in accordance with 10 CFR 26.73.
