June 2007

PROGRAM SUMMARY:

The ANO annual random testing rate is 50 percent. During this reporting period, approximately 26.85 percent of the population has been randomly tested. The rate of positive tests from random testing during this period is 0.0 percent.

POSITIVE RESULTS:

During the 6 month reporting period, employees and contractors submitted 1068 samples for collection and testing. Four confirmed positive for illegal drugs. One contractor refused to test.

MANAGEMENT ACTIONS:

Two contractors submitted pre-access samples that tested positive for marijuana at the Entergy cut-off level and were denied unescorted access. Two contractors submitted pre-access samples that tested positive for amphetamines. All four contractors were denied unescorted access. Another contractor refused to submit to a behavioral for cause test and his unescorted access was revoked.

EVENTS REPORTED TO THE NRC:

During this reporting period, the HHS certified drug testing laboratory returned a negative result on a positive blind QA specimen. However, the investigation determined that the content of the blind sample had degraded and the result from the laboratory was actually correct.

PROGRAM EVALUATION:

No programmatic problems were identified during this reporting period.
