FYI, your estimates were incorporated into the latest revision

>>> E Jacobs-Baynard 04/27/2007 9:46 AM >>>

Attached is the Key Planning Assumption for the New Centrifuge Enrichment Facility (AREVA). The new facility would come under the Enrichment Facilities Licensing and Inspection Planned Activity. A new subplanned activity would be established for this application. The resource table for participating offices is included as background information and has been revised from the version sent forward with the Issue Paper on April 23, 2007.

Let me know if there are any further questions.

Karen:

Please look at your planning assumptions and update to reflect this recent announcement. Provide the revised PA to OCFO and me.

Thanks;

Connie

Attached are the budget estimates for NMSS to support the recently announced additional fuel cycle facility. As shown in the Table, this estimate includes resources for all of the offices that will participate in this review. We coordinated the Table/estimates with the other involved offices.

This table should be included in the response to PRC Question #2 for Materials and Waste on break-out of resources for new fuel facilities.
