Subject: Crystal River Unit 3 – License Amendment Request #294, Revision 0,
Elimination of Spent Fuel Pool Missile Shields, Supplement #1

References: FPC to NRC letter, 3F0207-05, dated February 8, 2007, License
Amendment Request #294, Revision 0, Elimination of Spent Fuel Pool
Missile Shields

Dear Sir:

Florida Power Corporation (FPC), doing business as Progress Energy Florida, Inc., hereby submits License Amendment Request (LAR) #294, Revision 0, Supplement #1. This letter will delete statements made in the above referenced letter that stated FPC may use the missile shields in complying with NUREG-0612, "Control of Heavy Loads at Nuclear Power Plants," for movement of heavy loads over the Spent Fuel Pool, specifically, during Reactor Building tendon surveillance work. FPC is evaluating alternative methods of complying with the NUREG requirements, which will not require use of the missile shields. Alternative means of complying with NUREG-0612 requirements will be established prior to movement of heavy loads near the Spent Fuel Pool, currently scheduled to occur during the Fall of 2007. Therefore, FPC will permanently remove the missile shields on approval of this LAR.

If you have any questions regarding this submittal, please contact Mr. Paul Infanger, Supervisor, Licensing and Regulatory Programs at (352) 563-4796.

Sincerely,

Dale E. Young
Vice President
Crystal River Nuclear Plant
