Subject: Re: Exelon site characterization visit

Hi Mark,

Looks like we will be visiting Exelon site on September 11, 2007 if you can support it. I have not told Exelon yet. But, the technical branch has proposed September 10, 11, and 12. If you have any problem then we may think of week before that. I am waiting for 100% confirmation from Rebeca Karas's branch this morning. Please let me know.

Thanks,
Chandu

What week does the geotechnical branch want to visit the site?
