NRC TO HOLD PUBLIC MEETING ON PALO VERDE NUCLEAR GENERATING STATION

The Nuclear Regulatory Commission will meet with Arizona Public Service Co. officials on Sept. 6, to discuss performance improvements at the Palo Verde Nuclear Generating Station. Palo Verde, which is operated by APS, is located 55 miles west of Phoenix.

The meeting, which will be open to public observation, will begin at 9 a.m. in the NRC's Region IV office in Arlington, Texas. Conferees will discuss the status of Palo Verde's performance improvement plan and the readiness for NRC's comprehensive inspection at the site.

The public will have an opportunity to observe and ask questions of NRC staff before the meeting is adjourned. Members of the public can listen to the meeting via a special telephone line by calling 1-800-952-9677, and requesting ext. 472 for the Palo Verde meeting.

This is the third in a series of meetings between NRC staff and APS officials to help keep the public informed about the progress of safety improvements at Palo Verde.
