Terry,

I've got a few things that the MC&A reviewer is asking about the referenced letter. He would like to have:

1. a copy of the proposed page changes;
2. an explanation of why the change is being made and how it maintains the effectiveness of the FNMCP;
- and
3. a justification that the change is safe (describe any controls that are being used for it).

I understand that this is a minor change, but these are the things that are being asked in order to confirm the change does not require NRC pre-approval.

-James
