Subject: Completion of Documentation for AP1000 Design Certification Amendment

Westinghouse letter DCP/NRC1990 provides the results of an evaluation of the changes included in the design certification amendment on the assessment of severe accident mitigation design alternatives. Letter DCP/NRC1990 represents the completion of the documentation required for the acceptance of the design certification amendment application. With the submittal of this letter, Westinghouse has completed the requirements for amendment application as documented in the revision to 10 CFR 51 and 10 CFR 52 as published in the Federal Register on August 28, 2007. The effective date of the revised rule is September 27, 2007. Westinghouse anticipates that the application for amendment will be accepted and docketed for NRC review at that time. Westinghouse is hereby requesting a meeting to discuss schedule for the staff's review of the amendment request. NRC is hereby requested to contact Andrea Sterdis to arrange a schedule meeting.

If you have any additional questions or require additional information, please do not hesitate to contact me on 412-374-6306.

Very truly yours,
