Q-2

US Nuclear Regulatory Commission
Licensing Assistance Team
Division of Nuclear Material Safety
475 Allendale Road
King of Prussia, PA 19406-1415

Notification of Change of Control as per Nureg-1556 Vol. 15 Part 5

03032613
(5.1) License # 37-28721-01 now owned by Lawrence E. Wolpert Jr. of 1039 Prospect Road, Columbia, PA 17512, would like to transfer the Financial and Managerial Control and responsibility of this license to Alcoa Mill Products Inc. Mr. Wolpert is an employee of this company and serves as its Radiation Safety Officer. The company is just taking over License. Alcoa Mill Products Inc. is located at 1480 Manheim Pike Lancaster, PA 17601.

(5.2) The Contact person for this facility will be Lawrence E. Wolpert Jr. who will perform the duties of Radiation Safety Officer for this facility. He will also perform and/or oversee all the licensed activities. There are no new individuals involved with licensed operations.

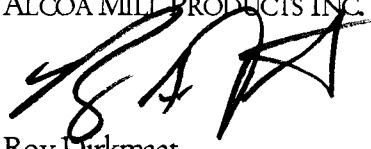

(5.3) The Location of all licensed material and operations will remain the same.

(5.4) All surveillance records will remain in tact and current. This includes all leak test results, inventory, and personal monitoring records.

(5.5) All licensed material at this site is in a sealed source form. Sealed sources will be returned to the manufacturer at the end of their useful life for processing and disposal. Our leak testing indicates that we have never had any removable contamination at this facility. We will not generate any radioactive waste.

(5.6) All radiation safety and use programs and procedures will remain the same and the facility will operate under the guide lines of the license.

Respectively,
ALCOA MILL PRODUCTS INC.

Roy Dirkmaat
Director of Operations
