Subject: **SUPPORTING DOCUMENTS - CHANGE TO THE QUALITY ASSURANCE PROGRAM DESCRIPTION**

References: (1) Letter from PSEG to NRC: "Change to the Quality Assurance Program Description, Salem Nuclear Generating Station – Unit 1 and Unit 2, Facility Operating License Nos. DPR-70 and DPR-75, Docket Nos. 50-272 and 50-311, and Hope Creek Generating Station, Facility Operating License No. NPF-57, Docket No. 50-354," dated June 20, 2007

In Reference 1, PSEG Nuclear LLC (PSEG) submitted a change to the Salem/Hope Creek (SHC) Quality Assurance Programs (QAPs). Specifically, PSEG had developed the SHC Quality Assurance Topical Report (QATR), Revision 0, which was provided as Enclosure 1 to Reference 1.

The Reference 1 submittal identified that the SHC QATR was evaluated by performing a line-by-line comparison using the site UFSARs and the Exelon QATR (Revision 76). This line-by-line comparison is provided as Attachments to this letter, as requested by the NRC on July 12, 2007. The line-by-line comparison has been updated to identify why certain items were not included in the QATR as originally stated.
