AUG 31 2007

Douglas M. Collins, Director
Division of Fuel Facility Inspection
U.S. Nuclear Regulatory Commission
Sam Nunn Atlanta Federal Center
61 Forsyth Street SW, 23T85
Atlanta, Georgia 30303

Dear Mr. Collins:

This letter is in response to your request that the Department of Energy National Training Center (NTC) provide the Nuclear Regulatory Commission (NRC) with presentations of all courses within our Materials Control and Accountability (MC&A) program. The NTC appreciates your interest in our MC&A program, but is unable to support your request at this time. Serving DOE is our priority and current demand remains high within our own community.

Please have your Region II Office employees periodically visit our NTC website training schedule for the most current postings of MC&A courses. Our NTC website is located at www.ntc.doe.gov. Your employees may enroll by contacting our registration department at (505) 845-5170, extensions 333 and 310. Registration requests are filled based on seat availability for all non-DOE agencies and we will do our best to fill your timely requests.

If you have any questions or concerns, please contact Robbie Smith at (505) 845-5170, extension 103, rsmith@ntc.doe.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey D. Harrell", is positioned above the typed name.

Jeffrey D. Harrell, Director
National Training Center
Office of Health, Safety and Security

cc: Registrar, NTC
