Requirements for Publication

Blue- Cristina G.

Red- Mark N.

Purple- Laura Q.

Pink- Tomeka T.

August, 2007

1. Include the following in the DEIS and FEIS packages:
 - Letter to EPA with 5 copies of EIS and 5 copies of service list **DROP DEADLINE SEPTEMBER 7th**
 - Letter to licensee enclosing EIS and the NOA **DROP DEADLINE SEPTEMBER 6th**
 - NRC Form 102, FRN form **DROP DEADLINE AUGUST 20th**
 - NRC Form 426, Authorization to publish a NUREG-Series document **DROP DEADLINE AUGUST 20th**
 - NRC Form 335, Bibliographic Data Sheet **DROP DEADLINE AUGUST 20th**
2. Make sure the cover letter to EPA states the date for the end of the comment period (75 days). Otherwise EPA tends to assume a 45-day comment period.
3. Make sure we have the most recent service list for the package (NWE1 for ESPs).
4. Provide draft press release to OPA prior to publishing FRN. The Regional OPA representatives issue the press release for the draft EIS and the headquarters OPA people issue the press release for the final EIS. Scott Burnell at 415-8200/O-2-H-1 is a contact at headquarters OPA. The press release for the draft EIS should be issued about 3-4 weeks before the public meeting. **DEADLINE SEPTEMBER 10th**
5. EPM performs the "Security-Safeguards Review" (looking for sensitive information) before delivery to Publishing. EPM sends an email to Linda Stevenson notifying that the Safeguards review for the document has been completed. **DROP DEADLINE AUGUST 20th**
6. After the security review is complete, give two copies of the EIS (one should be a camera ready copy and the second copy will facilitate parallel OMB review) to Publishing (Linda Stevenson at 415-7085/T-6-A-15) for the pre-printing review and ask them to do the OMB review in parallel with the editorial review. Work out the schedule to receive the bound copies. We usually ask for around 130 copies depending on the number of people on the mailing list. **DROP DEADLINE: AUGUST 20th**
7. Also, give Publishing a draft copy of the NOA for their records. **DEADLINE SEPTEMBER 6th**
8. For ESP and COL, Schedule a short briefing (15-30 minutes) with DSER management (J.Lyons), to discuss any significant environmental issues described in the EIS. Optimally, this briefing will occur before issuance of the EIS. Prepare a short briefing page for the meeting.
9. (Publishing does not want us to put the EIS into ADAMS because there should only

be one official version of the NUREG in ADAMS.) Publishing (Guy Beltz, 415-6298 or Charles Reed, 415-6906; they are on TWFN-6 near Linda) will perform a post-printing review when the copies of the NUREG return from the printer. Then Publishing will send the NUREG to the ADAMS people (OWFN-6) to be scanned into ADAMS. This process takes 1-2 days, and you may or may not get progress e-mails along the way. **DROP**

DEADLINE August 24

10. Contact NROWeb services in advance (5 days) and inform them that you will Provide an electronic version of the EIS to be put on the NRC web after it is finalized with Publishing. NRO web services contact (Luc Phuong See, PMDA at 415-1103/O-5-E-1). They will put the EIS on a special site and ask you to do a review (spot check) of the EIS on that special site. Once you give them approval, it will be put on the official web site. Forward a copy of the email message indicating that the review for sensitive information has been completed to "NROWebServices". **DEADLINE SEPTEMBER 7th**
11. After the Web people get the EIS uploaded, have PMDA web person (Luc Phuong) establish the links to the New Reactor Licensing page. Also, make sure he updates the schedule on the New Reactor Licensing web page to reflect issuance. **DEADLINE SEPTEMBER 7th**
12. Confirm that NRC web page for documents out for comment has a link to the EIS (DEIS only)(click the Public Involvement button, click Documents for Comment, and click NRC Formal (NUREG-Series) Publications). This is supposed to help a member of the public find the DEIS to review and comment. **DEADLINE SEPTEMBER 7th**
13. For delivery to the EPA, the main contact is Pearl Young (202-564-1399). Pearl is located in Room 7228; she will walk over to the filing office Room 7220 with you to process receipt of the DEIS (get copy of receipt). The 5 copies of the EIS for the EPA must be bound and accompanied by 5 copies of the expanded service list (basic service list expanded to include people involved in environmental review). The original signed version of the letter to EPA should also be included. To get to EPA, take the Metro to Federal Triangle. The EPA building is on your left as you come off the escalator out of the Metro station; you don't go outside. You will need your NRC badge for ID. **DROP**
DEADLINE SEPTEMBER 7th
14. Send two copies of the EIS to your contact in the associated EPA region. This avoids delays in them getting the document to review from EPA HQ. **DROP**
DEADLINE SEPTEMBER 7th
15. Rules & Directives Branch wants the document to be available on the Web before they send the FRN to the Office of the Federal Register. **DEADLINE SEPTEMBER 7th**
16. Confirm that both the EPA and NRC notices publish and that they have the correct date for the end of the comment period. **DEADLINE SEPTEMBER 7th**
17. Issue a Directors Highlight and EDO note after the DEIS is published.
DEADLINE SEPTEMBER 10th
18. Send under a separate letter a copy of the EIS to the SHPO requesting their comments

under 10 CFR 800.8. **DEADLINE SEPTEMBER 7th**

19. Send at least 10 copies of the EIS to the Contractor. Consult your team leader on number and media (bound copies and/or CDs). **DEADLINE SEPTEMBER 10th**
20. Send copies of the EIS to your licensee contact. Consult your licensee contact about number and media (bound copies and/or CDs). **DEADLINE SEPTEMBER 7th**
21. Give copies of EIS to Environmental Section members.
22. Send a note to NRC and contractor personnel letting them know that you have issued the EIS. Including a message of appreciation to everyone involved for their efforts is a good idea!
23. Prep and send a memo to the DLPM project manager concerning the status of any cost-beneficial SAMAs that are identified in the FSEIS (this will not be necessary if there are no cost-beneficial SAMAs).
24. Confirm with the local library that they received their copy of the DEIS/FEIS. **CALL SEPTEMBER 17th**
25. Retain a mark-up of the camera ready copy of the EIS that was received from the lab. This marked-up copy should include all changes made to the document after it was received from the lab. Make a matrix of the changes and assess the changes in accordance with the ratings guidance; give the mark-up and your matrix to Mike Masnik.
