Sorry for the delay - NRO InfoReview has reviewed the draft EIS and finds that it may be released without restrictions, including publication and posting on the NRC web site. As necessary, use this email to support the SUNSI review complete entry in the ADAMS keyword field. Address any questions to Bill Reckley at x1323.

Please review the attached documents for security info. Everything in the EIS is publicly available so I don't think there will be a problem. We need to have the review complete before next Weds 9/5 so we can put it onto the public external NRC website. Thanks and if you have any questions please call myself or Cristina Guerrero.
