September 25, 2007

Mr. David Edwards
Plant Manager
Honeywell Specialty Chemicals
P.O. Box 430
Metropolis, IL 62690

SUBJECT: PUBLIC MEETING SUMMARY: INSPECTION AND LICENSING ISSUES
HONEYWELL SPECIALITY CHEMICALS, DOCKET NUMBER 40-3392

Dear Mr. Edwards:

This letter refers to the public meeting at the NRC Region II office on September 20, 2007, during which we discussed matters of mutual interest regarding the inspection and licensing of the Honeywell Metropolis Works facility located in Metropolis, Illinois. The meeting afforded NRC and Honeywell representatives to discuss the upcoming implementation of your Integrated Safety Analysis (ISA) and its associated Plant Features And Procedures (PFAPs), currently scheduled for November 7, 2007, into your licensed activities. As we discussed, once you have implemented your ISA, we will inspect your licensed activities including the implementation of your ISA and its associated PFAPs. We recognize that as a source material licensee, you are required to implement the requirements of 10 CFR, Part 40 and your source materials license. The findings of these inspections will be characterized and communicated to you in accordance with the NRC's Enforcement Policy which may be found at the NRC website at <http://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>. It is our view that the meeting was beneficial.

The names of participating attendees at the meeting and a copy of the presentation used by Honeywell are enclosed. These materials included the Honeywell-prepared documents entitled "NRC Comments Concerning MTW ISA" and "Examples: Application of Regulatory Framework."

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

D. Edwards
