Dear Mr. Bills:

Enclosed is Amendment No. 04 to your NRC Material License No. 21-26788-01 in accordance with your request.

As discussed in our September 7, 2007, telephone conversation, your expiration date has been extended until February 29, 2007. It is my understanding that you plan to terminate this license as soon as you have properly dispositioned the radioactive devices you currently possess. If this is not your understanding, please contact me immediately.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in black ink, appearing to read "Toye L. Simmons".
