REQUEST FOR REVIEW AND APPROVAL OF THE REVISED EMERGENCY PLAN

By letter dated July 13, 2007 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML072060076), TXU Generation Company LP (the licensee) requested for review and approval of the revised Emergency Plan (EP) for Comanche Peak Steam Electric Station, Units 1 and 2. The proposed revision to the EP involves a change to the existing boundary of the Emergency Planning Zone for the City of Granbury.

Based on the results of our review, the Nuclear Regulatory Commission staff has identified the following additional information needed to complete the review:

1. Have the proposed changes been approved by the Federal Emergency Management Agency? Please provide evidence of their concurrence.
2. Explain why the description of "Granbury South of Pearl Street" provided in Section 1.2 of the submittal, would be used in Emergency Plan Implementing Procedures (EPIPs), but is not part of the proposed changes to your EP. Alternately, document that these EPIPs will be reviewed via Title 10 of the *Code of Federal Regulations* (10 CFR), Part 50.54(q) for future revisions.
3. Elaborate as to how you intend to deal with shadow evacuations when evacuating parts of Granbury.
4. Explain how this proposed change would affect your Alert and Notification System.
