Subject: USGS Report review

Mark--We have the review comments and are working on the revisions. It would be helpful if we could get a digital copy of the comments so we can annotate our responses directly beneath the comment. We are adapting most comments, but do have some responses that would be good to document. Please send me a copy of the comments via email as soon as possible.

Also--there was a request that we provide a copy of each reference to NRC for the ADAMS document access system. This may not be possible for all publications. We can provide web links for many of the USGS reports, hard copies of other USGS reports; however, some pubs are from the Savannah River Site and we have only one copy. Is there any flexibility in this request?

Thanks for your help.
