John:

Attached is the electronic version of the comment letter that you requested.

With regard to the references, we can take electronic versions, web links, and/or hard copies. You could even send us your one version of the SRS documents, we would copy it, and send back the original. We really need to have copies of all references available to the public. Call me if this is an issue and we'll work something out.

Mark

Mark--We have the review comments and are working on the revisions. It

would be helpful if we could get a digital copy of the comments so we can annotate our responses directly beneath the comment. We are adapting most comments, but do have some responses that would be good to document. Please send me a copy of the comments via email as soon as possible.

Also--there was a request that we provide a copy of each reference to NRC for the ADAMS document access system. This may not be possible for all

publications. We can provide web links for many of the USGS reports,
hard
copies of other USGS reports; however, some pubs are from the Savannah

River Site and we have only one copy. Is there any flexibility is there
is
this request?

Thanks for your help.
