NOTES/COMMENTS:

As per our telephone conversation:

American Refining Group, Inc. has arranged for Applied Health Physics, 2986 Industrial Blvd, Bethel Park, PA 15102, phone (412) 835-9555, to remove the source from one of the gauges located at our facility to allow reclamation of the source through the Off-Site Source Recovery Project at Los Alamos National Laboratories (LANL).

LANL has already provided ARG with the required packaging materials, into which Applied Health Physics will place the source, until LANL is able to pick-up the source and transport back to their facility.

Our contact at LANL is:

Timothy M. Dugan
