<p>Summary: First, I updated electronic mail and telephone numbers as none of the information in LTS or in the amendment request was correct. I told Mr. Peters that the submitted information did not appear to be a source that was registered in the sealed source and device registry. I asked him to check with the manufacturer and get the source model number that they submitted to the sealed source and device registry. He called me back at 8:55 AM and said that the source model was Amersham Model AMC.24. The material activity maximum per source and total activity needs to be requested for those items listed as per source registry maximum.</p>		
<p>Action Required: Review source in Sealed Source Registry and amend license.</p>
