Tom:

Thanks so much for your phone call and the additional information regarding the proposed project. As we discussed, once I receive the following, I can consider the application complete and move forward with the permitting process:

1. Federal Register notice of final EA
2. Technical memos prepared in response to NMED comments
3. SHPO concurrence with proposed project.

Yesterday I received the other necessary item, a discussion of state and federally-listed species in the proposed project area. Please let me know if you have any additional questions or need additional info. Many thanks.

Deanna
