Subject: Meeting to Discuss Spent Fuel Storage Cask Security Assessments

References: Letter from U.S. NRC to EnergySolutions, Subject: Spent Fuel Storage Cask Security Assessments, July 22, 2008.

Dear Mr. Brach,

In the referenced letter, NRC staff offered to meet with EnergySolutions Spent Fuel Division (SFD) to discuss the NRC's spent fuel storage cask security assessments. The NRC letter proposed three options for SFD to consider and requested that we respond within 30 days indicating our preference. SFD is interested in meeting with NRC staff to discuss the security assessments at a Safeguards Information (SGI) level. Following receipt of an Order from NRC, SFD will provide the information necessary to obtain the security clearances for those individuals that will have access to SGI.

Should you or any member of your staff have questions, please contact me at (408) 558-3506 or Steven Sisley at (408) 558-3509.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert A. Lehnert".

Robert A. Lehnert
Vice President of Spent Fuel Division
